

News Release

12 April 2023 | *For immediate release*

Swire Projects attains ISO 9001, ISO 14001 and ISO 45001 certifications

- *Underlines commitment to upholding the highest standards of quality, safety and sustainability*

Singapore – Swire Projects, the projects and heavy lift shipping services division of Swire Shipping, has attained the ABS Quality Evaluations certifications for ISO 9001:2015 Quality Management, ISO 14001:2015 Environmental Management and ISO 45001:2018 Occupational Health Safety Management on 14 March 2023. The achievement is a testament to its long-term business commitment to provide the highest level of service to its customers, and a reflection of the Company’s sustainability aspirations.

“To ensure that we have the best-practice systems in place which will enable us to manage our performance in the areas of quality, risk, safety, and sustainability, we created a new Integrated Management System in November 2022. This and the combined efforts of the team ensure that we are aligned in our goals and objectives, gaps in our work processes are addressed and continual improvement plans are in place. This sets us up to be able to provide our customers with consistent, good-quality products and services that meet regulatory requirements, while also having established environmental processes that we can implement, monitor, and measure,” said Namir Khanbabi, General Manager of Swire Projects.

“Safety is our guiding principle, and our aim is to ensure Zero Harm at sea and in our offices. In implementing ISO 45001:2018 Occupational Health Safety Management, we are taking a proactive approach to having the policies and systems in place for hazard identification and risk assessment, with the aim of ensuring improved organisational health and safety,” he added.

“This is a milestone for Swire Projects. The ISO certifications and annual audits are a necessary investment to ensure we perform at the highest levels and secure the continued success of our business for the long term. We look forward to celebrating many more milestones as a business.”

About Swire Projects

Swire Projects was established in October 2020 to provide specialist projects and heavy lift shipping services to the energy, renewable and infrastructure sectors in the global project logistics market. By bringing together trade routes, a diversified fleet and technical expertise across its parent company, Swire Shipping, and the Swire group's marine activities, Swire Projects is set to lead a smart network of resources, enabling highly efficient, trusted and flexible shipping solutions to service clients in the project logistics sector, particularly project forwarders, EPCs, Heavy Civil and offshore energy construction players.

About Swire Shipping

Swire Shipping is the wholly owned, deep-sea ship owning and operating arm of the multinational Swire group.

Headquartered in Singapore, Swire Shipping is dedicated to facilitating and growing trade in regions where it operates. Connecting over 400 ports, Swire Shipping provides several high frequency liner shipping services in the Asia Pacific markets; integrated logistics solutions in the Pacific; transpacific services between North Asia and the Pacific Northwest; and specialist shipping services to the global project logistics market under the brand name, Swire Projects. It specialises in providing a wide range of specialist customer solutions for project, heavy lift, refrigerated, breakbulk and mini bulk cargoes. Swire Shipping maintains a worldwide agency network in addition to its own representative offices across the Asia-Pacific, Pacific Islands, North America, and Europe, providing customers with dedicated service and expert market knowledge.
